Hits by Response Code

Errors found on your web site. These could be from outdated links, temporary Server problems, or issues on the client side.

Hits

Every time a visitor gets a file from your website, that counts as a Hit. This includes all images, audio, video, and other supporting files, as well as the actual HTML page itself. Even attempts to get files that don't exist count as Hits. One Page View might result in 10 Hits (one Hit for the HTML webpage and one Hit for each of the nine images within the page).

Files

This is how many files have been accessed on your web site. This includes images that are on your pages.

Pages

This is the total number of times a page of your web site has been accessed.

Visits

This is the total number of times your web site has been visited.

Kbytes

This is the amount of bandwidth your site is using.
